

Straight A's

Her professor's Mister Wisdom
He's the local grey-haired sage
Baby reassures me
He's way beyond her age
She says that she
Don't care for pipes
Stickin in a face
But lately I've been wonderin
How she's earning those straight A's

She takes classes
In the mornin
And she don't
Come home till late
And lately I've been wonderin
How she's earning
Those straight A's

Her favorite class is theory
It's based on facts and luck
She says that Mister Wisdom
Doesn't teach it by the book
He's opened up her mind
With philosophy and terms
But what bothers me
Are these new techniques
She's learned

Repeat chorus

I'm just a C student myself
But even my average brain can see
This little Einstein of mine
Is doin a number on me

Repeat 1st verse

Repeat chorus
